Luxury hotels are popping up so quickly in **Italy's** capital city that it's hard to keep track of each new opening. They join an already crowded field of palatial properties, yet often stand shoulder to shoulder with more modest **hotels** that have been welcoming guests for decades, if not longer. And while the hotel market for budget and middle class travellers may be growing less robustly, there are still more than 72,000 hotel rooms in **Rome** – meaning there's a bed out there for just about every kind of traveller.

Depending on your preferences, your hotel in Rome is either going to be central to your experience or merely a place to lay your head in-between **exploring ancient sites** and sampling handmade pasta. But a lousy hotel can ruin any holiday, so here is a look at the best hotels in Rome across a range of price points and styles. Whether through ambience, **amenities, location or value**, they each have stand-out offerings that make them worthy contenders for **your next stay in the Eternal City**.

Keep in mind that through the rest of the 2025 Jubilee Year, prices will be at a premium, even for the most ho-hum of hotels. Minimum stay rules of two or three nights may apply on weekends and holidays, and rooms will be snapped up fast, so be sure to book well in advance.
